WHERLING, W. V., OCTOBER 27, 1885.

The Meal Thing.

There is little dauger that anybody in this community will forget what is the real question before the Council touching the misconduct of public officers. The committee which sat two weeks to give the Chief of Police a chance to substantiate his charges certainly will not forget. Every witness for the prosecution, including the prosecutor himself, kept the maia question at the front.

Every reader of the local newspapers

Mr. Thomas W. Keene purchased all the scenery, properties and costumes used by the Continuation for his she keeping and the scenery, properties and costumes used by the Continuation and has been using all these coessories in his Shaksperian productions, and has received high commendation for his enterprise in this direction. Keene mought to "shoot" "Macheth," however.

Misa Flora Moore and her caro sposs, Mr. McAdow, are protected to have induiged in a more than usually acrimotious conjugal quarrel at Ottawa, Ill., recently, and since then he has been using all these coessories in his Shaksperian productions, and has received high commendation for his enterprise in this direction. Keene mought to "shoot" "Macheth," however.

Misa Flora Moore and her caro sposs, Mr. McAdow, are reported to have induiged in a more than usually acrimotious conjugal quarrel at Ottawa, Ill., recently, and now they never speak as they pass by except on matters absolutly necessary for the business of the company, of which Miss Moore is the star and Mr. McAdow the manager.

Every reader of the local newspapers than to accomplish the hapeless result of convicting the Mayor. The object of the vile accusations comes

It is right to consider the motive, not as affecting the Mayor, who is exonerated by the evidence, but in order to appreciate fully what it is the prosecu-Everybody knows that if the Mayor

This season it has been enormous.

THE OLD SCHEME AGAIN. The West Virginia Certificates and Wall Street Syndicate.

Whee'ing Register.

The information contained in an advertisement in the New York Evening Post and reproduced in the Register several days ago, in reference to the movements of the Wall Street Syndicate, relating to the socalled West Virginia certificates, is interesting and significant, as it contains the first authentic information of the exist-ence of any organized syndicate to enforce the payment of these certificates, or some part of them, by the State of West Vir-

friends have said in his behalf that he was driven to desperation and in retaliation brought the charges. That is to say, since his own conduct could not bear investigation, he was willing to throw mut at the Mayor in the hope that some of it would stick long enough to help his own bad case.

It was from no higher motive than this that Porter S nith accused the Mayor and swore to his accusation. No high sense of duty impelled him. He is not charged by law with the supervision of the Mayor's conduct as the Mayor is charged with the supervision of his. He wantonly defauned a character for the mere sake of getting himself out of a bad scrape. None of these things are likely to be forgotten.

The snactty of Elections.

Mr. Blaine, Senator Shermau, General Logan—all who have dared to raise a protest against fraud and violence at the polls—have been accused of flaunting the "bloody shirt." This means, of course, that the Republican leaders are seeking to reopen war issues and auti-war issues, to stir up passions that burnt themselves out in the flery furnace of war.

While Southern men admit the fact and attempt to justify it, no Republican need hesitate to denounce the infamy which pockets thirty-eight seats in the House of Representatives and as many in the Requirements of the New York Stock bank of New York and other well known Wall street bankers, and that the trust company's capital capital and access to the polls—have been accused of flaunting the "bloody shirt." It is important that it should be understood what is meant by such a pool, and how such matters are usually managed in Wall street. These certificates amount to about fifteen millions of dollars, with interest for fourteen years, the principal and interest amounting now to over twenty, when the provides a right to talk about it. Two weeks ago Bishop MeNierney, of Albany, was here on a visit. He was suffering at the time from rheumatism. While going through one of the public parks he picked up a horse chestnut and saked a friend who was with him something about it. The friend was a Californian, who said the people in California believed that if a person carried a horse chestnut in his nocket it would core rheumatism. The Bishop stated that he had rheumatism, and that while he was not in the least superstitions he would take one and give it a trial. He has since written here that he has had no return of his rheumatic troubles since hetook the chestnut, and that he will centime to carry it.

The Whirlisig Democracy.

The Whiritain Democracy.

Hatfard Pool.

The Democrats of New York were civil service reformers in 1884 and won a victory by their pretended devotion to the idea. This year their platform drelares that "the constitutional power of the heads of departments to make appointments must not be impaired." The Republican position in 1885 is exactly what it was in 1884. The Democrats have changed about for fear that the offices of the government, so long coveted, shall slip from their grasp now that they have the appointing power. the appointing power.

And Then the Mother Cried.

"Why, my dear fellow, your baby is just the image of you!" enthusiastically exclaimed the friend of a newly made

father. "You're very kind to say so, but if you mean to insinuate that I look like that dough fac.d lump of humanity I'd knock your head off."

An eminent Presbyterian divine an-nounced to his congregation that he must take a vacation on account of bronchitis, the elders raised his salary and gave him Dr Bull's Cough Syrno He was cured.
